inficat dispositione ponit unum illorum primo
nec logica dicitur scientia scientiarum quia hic
notatur quedam excellentia logice
super alias scientias quia non potest sine logica
sine metaphysica primo metaphysica vero et quod logica
dicitur scientia scientiarum a doctoribus metho[illegible]
primo via sciendi qui aut habet noticia
artis et scientia sunt scite ut [illegible] ethicorum
omnium quod invice [illegible] habitus sunt dicte
intellectuales sicut intellectus sapientia scientia prudentia
prudentia et ars x in scientiis habitus idem
est ars et scientia primo sit logica est ars et
non scientia Secundo est notandum quod multo dicitur
i. logica dicitur ars artium secundo quedam
excellentia eius ad omnes alias
artes secundo utilitate et quantitate in eius
applicatione ad omnes alias artes et scientias
quia quam cumque ipsa sed metaphysica via sit
ad disputandum non potest [illegible] sed etiam
ad principia omnium scientiarum Communis ipsa et
metaphysica modo potest dicitur secundo
primo metaphysica quia illic plenius est declaratum
Quantum ad correlarium quod innuit clausula insuper
notandum est quod cum logica [illegible] primo discere
da est quod magister cum discipulo possit conferre
sive sit in lingua latina greca vel ebrea
ita aut quaque alia Secundo ut greca regu
lariter ut alia ars vel scientia exponitur
nota facitur quod plures exeunt dubia
vel ignota potest per logicam sufficienter
acquiri cum indigeat uti terminis
vel eius argumentis quare logica
tradit doctrinam Tertio clausula sive
patet ut quod in videtur dicitur [illegible] propositione

di ad totam logicam Quarta est [illegible]
dispositione dicitur vel scilicet est doctrinalis
[illegible] docens ut patet primo elenchorum
secundo possimus dicere quod hic capitur dicitur
quantum per logicam Secundo quod dispositione non

Sed circa disputa[tionem]

non potest sine in fine metaphysice Habet
secundo primo oportet incipiendum est a [illegible]
nam ut plurimum opus logice exercetur
per disputationem que disputatio non potest
esse sine fine ut [illegible] sed voce
ideo [illegible] expedit dicere de voce et quia
omnis vox est sonus et non econverso ideo

tam
quod habet non sonus quam habet nomen vox et
ideo incipiendum est aliquid dicere de sono
non quia sonus dignior est voce sicut [illegible]
quia terminus sint secundum sapientie dictum quantum
unigenitum est [illegible] sed notabit notorum et a
notoribus est incipiendum ipse quod de
primo physicorum [illegible] quod ab [illegible] optimus
tertia via procede i. a magis [illegible] ad minus
[illegible] Primo sonus est qualitas et [illegible]

Sonus est qualitas

sensibilis ab auditu proprie id est proprie
Sonorum alia vox alia non vox Sonus
vox est sonus ab ore alius prolatus in [illegible]
instrumentis Sonus Sonus non vox
est alius sicut sonus qui non est vox Circa
[illegible] primo ponitur [illegible] clausula primo
descriptio soni quia sic ponitur Sonus est
qualis sensibilis ab auditu proprie et proprie
secundo est separate est qualis gustu proprie
et proprie et odor olfactu et color
visui extendendo non calor et color
luce [illegible] actu si ponatur ad
[illegible] si [illegible] comprimitur et habet non
nota tali [illegible] figure [illegible] sicut
Secundo tamen est notandum quod magis dubium
est cum [illegible] colore vel sonum distincte
apud colorato vel sonante et quod sonus
[illegible] sit actus et sonus [illegible]
[illegible] [illegible] [illegible] habet nota
coloratum dulce calidum amarum Secundo
[illegible] est considerandum melius de anima
habet cum que hic premittitur non sunt
de logica sed de alterius scientia et ideo ea que
hic dicuntur debet corrigi ea que
hic dicuntur Tertio clausula dividit
quod alius est vox alius non vox et
[illegible] [illegible] [illegible] hic diciamus
non vox sit [illegible] sonus [illegible]
sonus et si ponatur sonus [illegible]
[illegible] non est [illegible] sonum [illegible]
[illegible] habet [illegible] infinito non [illegible]
dito sicut nomen sonus non vox ad
describit secundo istum Quarta clausula voce
ab ore animalis prolatus quod vox est sonus
quia non [illegible] ad logicam non
intendo [illegible] hic ut [illegible]
Secundo [illegible] secundo de anima potest [illegible] [illegible]

voc. sed vox est sonus aliqs certi respectum

Notandum est etiam quod vox potest intelligi ab istis
instrumenta quibus vox formatur dicens In-
strumenta vocis sunt guttur lingua pa-
latum quattuor et dentes et duo
labia sicut vel ad dicit ios ipsi sed eo
diminuto quod formari possit vox sine dentibus
et sine lingua. Secundum requirit pulmo et
arteria per quam fit anhelitus inspiratio
et expiratio et ingutturis fistula
huius alterius. Sed sic alibi videantur
Circa clausa dicitur hac de re
omnis sonus qui non est vox est sonus non
vox sed non dicitur quod sit aliqua diffinitio
Sequitur vocum alia significativa alia non significativa

Vocum alia significativa

alia non significativa. Vox significativa est quae audi-
tui aliquid repraesentat ut homo haec
gemitus infirmorum dolorem et lacrimae
causam vel gaudium sed Vox non
significativa est quae auditui nihil repraesentat
ut bu ba. Et sic patet primo sed 2o decla-
ratur quae est divisio vocis in significativam et non
significativam quod statim videtur quod ... 2o declarat
sed dicitur quod omnis vox sit sonus sed
dicens non cum omnis alius sonus est vox
sed ex anima cum verberatione et cum ymaginatione
aliqua significandi quidam sonus est vox Ad-
buc est dicendum quod cum non possit proferri
vox sine aliquo conceptu omnis vox est
significativa illi qui est vociferans concipit
Dicitur quod vox profertur significativa intelligitur imposito
animo vocem quod habet vel alicui audienti
notificat aliquam rem vel quas res
quas vociferans concipit Dico no-

quod quia voces ad placitum mihi
instituuntur ad significandum conceptus meos
ideo saepe contingit quod unam totam vocem
simul impono ad significandum aliquem
magnam orationem mentalem ita quod
licet illa sit in intellectu mentalis oratio tamen
non seorsum sed pars alicuius simplex con
ceptu in mentali oratione et tunc talis
vox apud me dicitur incomplexa et vocatur
dictio quae non dividitur in partes quarum quaelibet
sit aliquid seorsum Sed non ingenuis
quod apud me vocetur oratio sicut ut
si hoc nomen Ilias esset imponeretur
equivalenter totae historiae troianae
sicut hoc nomen vacuum impositum est ad
significandum equivalenter huic orationi locus

designat propositionem mentalem sed non dicitur
apud me oratio sed simplex dictio quia non
est divisibilis in voces quarum quaelibet
significet seorsum conceptum simpliciter
Notandum est et quod sicut se habent voces
sine ad placitum ad designandum
conceptus mentales sic se habent
scripturae ad designandum voces. Unde
voces non sunt res extra animam nec
mentales conceptus quibus sunt ordinatae
ut etiam scripturae sunt conceptus
et res alias nisi quae sunt voces
illos conceptus designantes propter
quod tu videns litteras ebraicas et nesciens
legere quia ignoras quas voces
designant et item scientes istas vo
ces in lingua latina designant ignorantes
tamen proprietatem vocum latinarum Sicut legunt
in psalterio sed non ultra designationem
illarum litterarum apprehendunt quia
ignorant proprietatem vocum latinarum Ideo littera cum
scripta sunt dicitur haec non sunt hoc non ex
eo quod sunt voces significativae Notandum est
quod scriptura non dicitur oratio nisi quod sit oratio
vocalis nec vocalis dicitur oratio nisi quod designet
orationem mentalem sed oratio mentalis non amplius
dicitur oratio quod sit ulterius alia oratio sed quia
est compositio plurium conceptuum in mente quod
non oportet sive diversas res Et Eadem
res simplicissima potest concipi valde multis
et diversis conceptibus quos alia potest in ipse
ipsa componere vel dividere et expectis
dicere fore mentalem orationem Similiter scriptura
non vocatur dictio vel terminus nisi quod sit terminus vel
dictio vocalis Dictio autem vocalis apud logi
cum dicitur propter dictio si sine subor
dinatur uni conceptui simplici. Notandum
est apud me dicitur dictio licet non sit ordinata
conceptui simplici sed uni orationi si
ipsa sit imposita tamquam se tota sit ad
significandum illam mentalem orationem ita quod non
per seorsum sit pars alicuius illius orationis
mentalis sicut hoc vox Ilias poneretur
pro qualibet tamen scriptura totae troianae

Oratio est vox sig

ad placitum cuius partes aliquid separate significant cuius partes [illegible] totum ponit ad differentiam nominis et verbi [illegible]

[illegible]

[illegible] ista [illegible] questio [illegible] propositio est oratio verum vel falsum

Propositio est oratio

verum vel falsum significans indicando. Iste est secundum capitulum in quo determinat de propositione et eius divisione secundum substantiam qualitatem et quantitatem et continet duas partes. In prima determinat de propositione, in secunda determinat de propositione in ypotheticam et kathegoricam. Prima est diffinitio sui et partium que sunt principales partes kathegorice propositionis. Secunda est divisio propositionis kathegorice secundum substantiam eius. Tertia ibi: dividitur secundum eius quantitatem. Quarta ibi: dividitur secundum eius qualitatem, et quinta: apponuntur descriptiones communibus terminis dictis. Secunda pars incipit ibi: propositionum alia kathegorica alia ypothetica. Ista [illegible] est descriptio; secunda ibi: propositionum kathegoricarum alia universalis, tertia ibi: item propositionum kathegoricarum alia affirmativa alia negativa. Quarta ibi: dicitur propositione.

Prima pars describit propositionem dicens quod propositio est oratio verum vel falsum significans, et auctor apposuit illam clausulam indicando in fine propter talem orationem: fuit [illegible] etiam cum non apposuit. Notandum est etiam quod hic diffinitur propositio vocalis quia hic ponitur oratio [illegible] genus quod prius est diffinita [illegible] ipsa et vox significativa [illegible] dicit auctor quod propositio est oratio. Propria propositio vocalis sit propositio mentalis. Sed non oportet quod propositio mentalis significet verum vel falsum, propositio enim mentalis significat quia non est [illegible] sit falsum [illegible] enim [illegible] operationes anime [illegible] sit in oratione [illegible] plus vel unus [illegible] sic in orationes vocales [illegible] apud auctorem [illegible] conceptus [illegible] quod [illegible] operatio [illegible] super sine [illegible] conceptus kathegoricus [illegible]. Notandum est quod hic sunt propositio [illegible] cum [illegible] et non [illegible] distinguitur [illegible] ut [illegible]

Propositionum kathegoricarum alia

kathegorica alia ypothetica. Kathegorica est que habet subiectum et predicatum principales partes sui, ut homo est substantia. Cum propositio homo est [illegible] homo subiectum et predicatum et quod coniungit unum cum alio dicitur copula, quod patet in resolvendo sic: homo est, idest homo est currens, sic hoc nomen homo subiicitur et currens predicatur, et hoc verbum est coniungit unum cum alio dicitur copula. Et dicitur kathegorica a kathegorizo zas zac [illegible] quod est predico, ab ac in kathegorica quod predicatum [illegible] clausula habet poni pro principales. Prima est divisio propositionis kathegorice et in ypotheticam que est inaudita sicut patet [illegible] vide quod sit kathegorica et quod sit ypothetica et in clausula describit propositionem kathegoricam quod ipsa [illegible] partes sunt subiectum et predicatum et pro hoc apparet plene distinctio eius a propositione ypothetica. Quia principales partes ypothetice non sunt subiectum et predicatum sed plures propositiones quarum quelibet est [illegible] compositio et [illegible] in illo quod patet uniusquisque videre. [illegible] clausula exponit dicit kathegorica est [illegible] dicta propositio homo est [illegible] propositio homo est subiectum et predicatum. Circa [illegible] [illegible] quod verbum non est predicatum [illegible] cola predicatum [illegible] subiectum ut [illegible] predicatum sunt et copula [illegible] verbum est [illegible] et copula et quod [illegible] est predicatum. Sed hoc verbum [illegible] ut cum dico homo est ut etiam quodlibet aliud verbum implicat in se copulam [illegible] principaliter [illegible] pro [illegible] subiectum predicatum et copulam [illegible] verbum [illegible] hoc verbum [illegible] si propositio sit [illegible] et [illegible] implicatur [illegible] ut homo [illegible] homo est currens [illegible] homo [illegible] [illegible] duo [illegible] hic copula [illegible] propositionis [illegible] est dicta propositio [illegible] ut [illegible] ypothetica vel kathegorica [illegible] quod [illegible] ypothetica [illegible]

Tercia regula talis est

precedit virtutem ut nullus nichil et nullus nullius

et quod cum ambe negationes cadunt super copulam
in ipsamet quantitatem adquirit propositionis sed

secunda negatio non cadit super primum signum quod

quod prima negatio cadit super secundum signum quod precedit
cadit ipsum et tollit eius distributionem propter

predicatur de pluribus quia vere dicimus quod iste homo
est individuum et iste homo plato et indi-
viduum. Item iste homo iohannes est individuum
et predicatur de pluribus quia ego sum iohannes
et tu es iohannes et sic de multis aliis. Item
iste homo hic est individuum et tamen predicatur
de pluribus contra de quolibet homine verum est
dicere quod ipse est iste homo. Item sic hoc
nomen rubeus ut patet [illegible] iste homo tamen predicatur
de pluribus tamen contra rubeus et hic
et ille et musicus et albus et tamen continet
omnes istas species iste tamen rubeus
predicatur de omnibus istis sicut musicus
albus ergo predicatur de pluribus. Solutio
istorum omnium sunt similes quod ad primum dicendum
quod hoc nomen individuum non est individuum
sed dicitur iste homo et hic unus
hoc nomen individuum et unum nomen secunde
intentionis predicatur de pluribus et est una
species et nomina secunde intentionis
Ad aliud prius dicendum fuit quod hoc nomen
vale iohannes non dicitur de te et me
quia non unum impositum ut una vox est
imposita ad significandum te et me. Ad aliud dico
quod hoc verbum iste homo non dicitur de pluribus
et plures causa eadem ratione quia
sunt diverse dictiones una et pluribus
a pluribus et sic in diversis dictionibus
diverse voces continentes contra una
non predicatur ut non predicatur de pluribus et
non in pluribus. Ad ultimum dicendum
fuit prius quod sic est individuum
ut predicatur de pluribus tamen
tamen non predicatur in pluribus
ex parte speciei individui. Individuum
dicitur quod dicimus solo predicatur
predicatur uno solo ut sic quod individuum
et plures dicimus pluribus predicatur
Ad aliud dicendum de individuo quod utrumque iste
tamen dicitur individuum ut species et
quod individuum quod non sit ut predicatur
de pluribus et non predicatur uno solo et
predicatur pluribus. Solutio [illegible]

quod sic experientia predicatur in pluribus quod species
pluribus tamen hoc non impugnat comune
... sic communis sic impositio et species
nomina imposita et hoc tamen dicitur
opinio vel imaginatio contra imposita
plures et unus et si sunt plures dicitur quod
sunt in duo plures ad hoc iste tamen dicitur
species communia imposita predicatur primo ipsum istorum
secunde contra dicitur istis sub lumine individuis
et species secundum nomina sicut et imposita
hic tamen per individuale aliquo sicut
non secundum opinionem contra impositionem sicut
et sic dicitur sunt nullo alio solus et uno
sibi tamen contra impositum dicitur iohannes in-
pugnat cum sit comunio sicut impositionis
et hoc quod species predicatur contra impositionem

Differentia dicitur specialiter

sed communiter proprie et magis proprie. Communiter dicitur
in quo alterum ab altero differt separabili accidente
ut sortes differt a se ipso vel ab alio. Proprie dicitur
in quo alterum differt ab altero inseparabili accidente
sicut simus aquilinus et similia. Magis proprie dicitur
in quo alterum ab altero specifica differentia differt
ut homo differt ab equo per rationale. Et hoc
ultimo modo sumitur hic et est unum de quinque
predicabilibus. Hoc liber tertius capitulum sicut totum
de differentia et continet textus partes
primo dividit hoc nomen differentia communiter
accepit de qua hic intendit tractare
et secunda ponit duas diffinitiones differentie
per hoc quod intendit sic per unum
modum in prima et unam contrarium in capitulo
et diffinit differentiam contra speciem et sic de
prima et ablata prima per tres clausulas
prima et distincta membra alie aut sunt
declaratio istorum trium membrorum vel clausule
in membris de quo hic intendit simul
particulariter quod differentia hic non dicitur
tantum sed communiter proprie et magis proprie et hoc continet
membra per ex parte membrorum separationis
differentia secunda clausula quod differentia communiter dicitur
quo aliquid differt vel dicitur a se ipso vel ab altero

Sed autem sic [illegible] datis 2 dicatis

mixtionem tamen si per propositiones ad quas modus reduci
tur omnes syllogismi concludunt, propositiones sunt majores
in secunda qualitate sicut in figura ut patet in
instantia et sic omnem hominem contingit dormire et
omnem vigilantem contingit dormire non sequitur ergo
omnem vigilantem contingit esse hominem, et si non in istis
syllogismus concluditur sed quod ut in eis concluditur non
a prima et a necessaria tunc sic dico quod quia necessaria
compellit ante istum, et licet patuit dictum sunt
de propositionibus aliis, patet quod etc. in istis de prima
ita dicunt prius, dicitur in istis secundo
ut distinguitur, dico quod conclusio de
necessario est quod est in syllogismo in prima figura non
in secunda eadem figura ex parte de omni
et dici de nullo, quia si dico omne quod est
b necesse est esse a, et omne quod est c necesse
b est esse b, ergo omne quod est c necesse est
a, quia patet quod addita de omni quod est c necesse
est esse b, patet ita omne quod est c est b etc.
dicitur sunt alie conclusiones sub dispositione, nunc
tamen dico si omne quod est b necesse est
esse a et omne quod est c est b, tunc dicitur
sic omne quod est c necesse est esse a ergo sequitur
premisse particulare quia quicquid sequitur ad quodlibet sequitur
ad antecedens. ¶ Sed nunc secundum conversionem in
prima sic omne quod est placatum in oriente
necesse est esse solem et omne quod est placatum
in occidente necesse est esse solem, sed
patet quod placatio solis sub sit in oriente
et luna in occidente et tunc quod ita sequitur ergo
quod est placatum in occidente necesse est esse non placatum
in oriente. ¶ Item secundum placationem syllogismi
per conversiones si ad syllogizandum talem materiam
syllogizare mixtum ante et causa dico quod
c contingit esse a et quod est necesse est esse
b, sequitur quod dico contingit esse b necesse est esse
a ad quod ultimum sequitur ergo quod dico quod est b
necesse est esse a quia sequitur si aliquod necesse est
esse b quod est b nunc aliquid non sequitur
tamen de contingenti quod dico contingens est dicendum

sed contingit necesse est etc. de contingenti quod ita
est dicendum ¶ Distinguit autem dico
quando ex syllogismis propositionibus est de contingentibus
distinguenti quia in prima figura est in instantia
posito tamen quod dispositio nullus est dormiat
in duo est fortes et sunt potentes
contingenter et sic fiat syllogismus sic omne quod est
dormiens contingit esse et omne quod
est alius prius prius contingit dormire ergo
omne quod est alius prius prius contingit
dormire, ergo patet sic nunc et quod sequitur
¶ Dicitur in secunda figura est instantia posito
quod nullus est dormiat et quod omne
quod est alius contingit vigilare et omne
quod est alius contingit dormire, non sequitur
ergo aliquid quod est dormiens contingit vi
gilare, sicut tamen quod sequitur conclusio
primo et patet contingit vel sic quod
maximi si de non velit accipere
propositionem malum in syllogismis que sunt qua

De vero autem et de falso

Dicendum est quod premisse dicuntur et sequentia

Dico quod ita ut videtur valet sic

non generaliter non dicitur malum nisi in quantum

inclinatione in suis speciebus formis et ipsum alicuius
est non cum est accidens ipsum quod id non

hominis et contrarium etiam non est dicitur ad
non esse quod suum propter habebat calidum

privatum utique sensus in dispositione et non
dispositiones non perimitur prohibebat unde

ergo suum privatum dispositione perfecte
dicitur malum in imperfectum vel magis bonum
quod si habet esse tunc non perfectionem suam pri-

in magis malum vel magis malo sicut habens
quia si habet esse secundum habitum bonum

primum ergo adherere vicio peccatum per modum
per actum sit quod primum peccatum imperfectum
corpus aut forma aliena ad aliud tamen
est quia eius in quodam ordine et ipsa
in aliis est. Exemplum de quodam dicitur ut
homo est animal ergo omne non animal non homo.
Exemplum de relatis ut hoc duplum est in
tantum ergo subduplum est subdupli. Exemplum
de contrariis ut omnis iusticia est virtus ergo
omnis iniusticia est vicium. Exemplum disparatum
ut omnis vicium est peccatum ergo caritas est
peccatum. Notandum est quod in talibus
locis semper quibus absolute aliquis

locum si oppositum modum et proprium appropriatum
tamen in contrariis et in aliis dicitur
in ipsa quoniam adequatum contrario omnis
propositio dare sit quod oppositum ne deus quod
deus propter primum ne deus disparata.
Tamen quod talis argumentatio sit

quia non sit detis esse ergo non ens
est non deus. Propter non sit non caput est
asinus ergo non asinus est caput quoniam

fuit in finitates. Aliud modo est
quod primos contrarios ut albus et niger et
in talibus tres diutes solum per modum
finitum et infinitum ut homo non homo
animal non animal quod ergo vere in tribus
contrariis valeat quia eius non et in ipsa
quod verum sit homo quia quod ipso proprius

homo quia omnis ut aliquis homo est ens ergo
omne ut quod non ens est non homo tamen

non enim sit non homo est non lapis ergo
lapis est homo et sit arbor non lapis est
est non homo ergo homo est aliquid plus necesse
non sit non homo est non homo aliquid ergo non
aliquid est non homo ut et non homo est lapis
ergo non lapis est non homo. Sic gradus
